Date completed:

Activity Name: Collaborating to recognise and address conduct disorder

Learning outcomes Watch this facilitated panel discussion of Aaron's story to be better equipped to:

- describe the biological, genetic, environmental, psychological and social factors that contribute to conduct disorder
- identify the challenges, merits and opportunities in evidence-based approaches deemed most effective in treating and supporting children/adolescence experiencing conduct disorder.
- implement a referral pathway to support children/adolescents with conduct disorder.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
