MHPN WEBINAR

Culturally responsive health care for older Australians

Continuing Professional Development Learning Record

Complete and save a copy of this form to create your own record of CPD you've undertaken or to further embed your learning. Please note, MHPN is unable to provide Statements of Attendance for viewing webinar recordings or listening to podcasts.

Your details

Your name:	
Date completed:	
Activity Name:	Culturally responsive health care for older Australians
Learning outcomes	• discuss how culturally diverse social and emotional wellbeing beliefs are associated with healing and recovery for older people • outline the impacts of treatment and support sought by older people experiencing difficulties with their social and emotional wellbeing • discuss practical tips and strategies to engage in recovery oriented culturally responsive conversations with older people • identify improved target of referrals for older people as a result of improved understanding of the role of different disciplines, faith based groups and community services.
Time spent engaged in the activity:	(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:
   - Explore the topic further in a supervision session or with a peer/colleague
   - Identify and read the latest research
   - Undertake additional courses, study or training
   - Search MHPN's webinar or podcast libraries for more PD content
   - Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
