Activity Name: Working Together to Manage Methamphetamine Use and Mental Health Issues

Learning outcomes Watch this facilitated panel discussion Barry's story to be better equipped to:

- describe how to engage with people using methamphetamine to reduce harm, improve intervention and mental health symptoms
- implement key principles of providing an integrated approach in the early identification of people with co-morbid methamphetamine use and mental health issues, increasing the likelihood of a successful course of treatment
- identify challenges in providing a collaborative response to people with co-morbid methamphetamine use and mental health issues, and share tips to overcome these challenges.

Time spent engaged
in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
